

Syntagma

Research without barriers to entry

Open platform for independent, transdisciplinary research · Vienna and Tulln an der Donau

Starting point

- Many paths into science require a degree, a university or contacts.
- Much knowledge arises outside institutions: in workshops, businesses, initiatives, scenes.
- Syntagma: a statement counts because it is supported by evidence, not because of who makes it.

Principles

- What is knowledge stays free: open licences, mostly CC BY 4.0
- Findings and assessment kept apart, strength of evidence stated, gaps named
- Public checking instead of peer review: errors corrected with credit
- Disclosed: funding, use of AI, commercial ties
- No tracking, no advertising, non-military

Take part without a title

- Community: sign-in via e-mail link, contributions to any work
- Fund projects together, sponsor a series
- Use, check, contribute, co-research
- Credit in the work and in your profile, with ORCID if you like
- Open calls: test runs, theses, accompanying research
- Publications from ORCID and Zenodo, refreshed hourly

Syntagma Campus

- Seven study lines at degree level: mathematics, physics, chemistry, biology, ecology, engineering, robotics
- Each line: tools, works, self-experiment, your own piece of work
- Study orientation and a trainer for admission procedures
- Citizen science: birds, pollinators, bats, waters with ZÄHLWERK and RUFWERK
- Not a university, no degrees: complementary and open to all

From research to application

Schicht-Werk

fabrication, prototypes, generators

Signal-Werk

audio tools, synthesizers

CuePoint

event technology, training

Lern-Agent

school and training

Entropic Unit

culture, RED!SIGNAL

HerbivoreVibes

nutrition; personal tools at personal-is

Whoever cites, cites Syntagma; whoever buys, buys from the respective brand.

Access by user group

GROUP	TERMS	PAID, IF USED
Everyone	free	works, tools, reading samples, profile
Independents, students, initiatives	-25 % with proof	textbooks, library, services
Universities, schools, associations	framework agreements	teaching and institution licences
Companies	fixed price or offer	licences, editions, tool development

Modular kit: combine what fits

EXAMPLE: MUSIC AND SOUND

✓ Synthesizer · Signal-Werk

✓ Enclosures and rack inserts · Schicht-Werk

✓ Audio tools · Signal-Werk

✓ Event technology · CuePoint

✓ Culture and events · Entropic Unit

One enquiry, one joint offer, one contact. Pay for what you use.
